Topic: Challenging Thumb Reconstructions

Dr S Raja Sabapathy

97. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Radial Nerve Tendon Transfer
Dr S Raja Sabapathy
98. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: How do I approach? Secondary reconstruction following trauma
Dr S Raja Sabapathy
99. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: My strategy for free flaps in upper limb reconstruction
Dr S Raja Sabapathy
100. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Principles of decision making in selecting skin cover
Dr S Raja Sabapathy
101. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Distant pedicle flaps
Dr S Raja Sabapathy
102. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Salvage of Mutilated Upper limb
Dr S Raja Sabapathy
103. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Surgical management of chronic burn contractures
Dr S Raja Sabapathy
104. 29th – 31st August, 2014. South African Society for Surgery of the Hand at South Africa
Invited Faculty:
Topic: Management of Electrical Burns of the Hand
Dr S Raja Sabapathy
105. 3rd April – 6th April, 2014. European Federation of Society for Microsurgery (EFSM) at Barcelona, Spain.
Invited Faculty:
Topics: Free Flaps to the Upper Limb
Dr S Raja Sabapathy
106. 3rd April – 6th April, 2014. European Federation of Society for Microsurgery (EFSM) at Barcelona, Spain.
Invited Faculty:
Topics: Free Flaps to the Upper Limb
Dr S Raja Sabapathy

107. 3rd April – 6th April, 2014. European Federation of Society for Microsurgery (EFSM) at Barcelona, Spain.
Invited Faculty:
Topics: My strategy in free flaps in Lower Limb Reconstruction
 Dr S Raja Sabapathy
108. 3rd April – 6th April, 2014. European Federation of Society for Microsurgery (EFSM) at Barcelona, Spain.
Invited Faculty:
Topics: Two decades of salvage of Complex Limb Injuries - Lessons learnt
 Dr S Raja Sabapathy
109. 7th March – 9th March, 2014. Vietnam
Invited Faculty:
Topics: Management of Mutilating Hand injuries
 Dr S Raja Sabapathy
110. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Principles of Soft tissue cover and Decision making.
 Dr S Raja Sabapathy
111. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Distant pedicled flaps.
 Dr S Raja Sabapathy
112. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Macro replantation
 Dr S Raja Sabapathy
113. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Free toe transfer – How I do it?
 Dr S Raja Sabapathy
114. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Care of the Acute Burns – Thermal and Chemical
 Dr S Raja Sabapathy
115. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Management of Chronic Burn Contractures of the Hand
 Dr S Raja Sabapathy
116. 31st January – 1st February, 2014. British Society for Surgery of the Hand, Instructional Course, Manchester, UK. **(delivered 7 lectures)**
Topics: Chronic and Rare Infections of the Hand
 Dr S Raja Sabapathy
117. 3rd February, 2014. North East Thames Regional Hand Club. Annual meeting, Chelmsford, UK

Invited Faculty:

Topics: Challenges in setting up of the unit at Ganga Hospital and the things that worked.
Dr S Raja Sabapathy

118. 3rd February, 2014. North East Thames Regional Hand Club. Annual meeting, Chelmsford, UK

Invited Faculty:

Topics: Extending the Frontiers of Limb Salvage in the Upper limb
Dr S Raja Sabapathy

119. 3rd February, 2014. North East Thames Regional Hand Club. Annual meeting, Chelmsford, UK

Invited Faculty:

Topics: Major replantations
Dr S Raja Sabapathy

120. 3rd February, 2014. North East Thames Regional Hand Club. Annual meeting, Chelmsford, UK

Invited Faculty:

Topics: Management of intraarticular fractures of the PIP joint.
Dr S Raja Sabapathy

121. 3rd February, 2014. North East Thames Regional Hand Club. Annual meeting, Chelmsford, UK

Invited Faculty:

Topics: Management of long segment bone gaps in the upper limb
Dr S Raja Sabapathy

122. 18th- 19th January, 2014. Annual Meeting of the Nepal Orthopaedic Association. Dharan, Nepal.

Nepal Orthopaedic Association Oration

Topic: Step by Step Management of Mutilated Hand Injuries – Ganga Hospital experience
Dr S Raja Sabapathy

123. 18th to 19th January, 2014. Annual Meeting of the Nepal Orthopaedic Association, Dharan, Nepal

Invited Lecture: Microsurgical management of long segment bone gaps in the limbs.
Dr S Raja Sabapathy

124. 3rd to 5th October 2013 American Society for Surgery of the Hand (ASSH), Annual Meeting, San Francisco

Invited Faculty: Guest Lecture:

Topic: Distant Pedicled Flaps: Getting the most out of your groin flap
Dr S Raja Sabapathy

125. 25th – 29th August 2013 International Surgical Week, Helsinki, Finland

Invited Faculty: Guest Lecture:

Topic: Cost effectiveness in hand surgery: My perspective
Dr S Raja Sabapathy

126. 25th – 29th August 2013 International Surgical Week, Helsinki, Finland

Invited Faculty: Panel Speaker:

Topic: Complex Trauma of upper extremity – Evaluation & basic principles
Dr S Raja Sabapathy

127. 25th – 29th August 2013 International Surgical Week, Helsinki, Finland
Invited Faculty: Panel Speaker:
Topic: Complex Trauma of upper extremity Bone & joint primary reconstruction/repair
 Dr S Raja Sabapathy

128. 25th – 29th August 2013 International Surgical Week, Helsinki, Finland
Invited Faculty: Panel Speaker:
Topic: Complex Trauma of upper extremity – Tendon, muscle and nerve primary reconstruction/repair
 Dr S Raja Sabapathy

129. 25th – 29th August 2013 International Surgical Week, Helsinki, Finland
Invited Faculty: Panel Speaker:
Topic: Complex Trauma of upper extremity – Burns of upper limb.
 Dr S Raja Sabapathy

130. 11th – 14th July, 2013 World Society for Reconstructive Microsurgery Annual Meeting, Chicago, USA
Invited Faculty: Panel Speaker:
Topic: Approach to management of complex defects of the pediatric upper extremity

131. 11th – 14th July, 2013 World Society for Reconstructive Microsurgery annual meeting, Chicago, USA
Invited Speaker: Panel Speaker
Topic: Reconstructive Strategies in Complex Trauma of the Upper limb

132. 11th – 14th July, 2013 World Society for Reconstructive Microsurgery annual meeting, Chicago, USA
Moderator: Symposium on Hand /Upper Extremity II
Topic: Improving outcomes in replantation surgery

133. 11th – 14th July, 2013 World Society for Reconstructive Microsurgery annual meeting, Chicago, USA
Session Chair: Symposium on Nerve
Topic: Optimizing sensibility and motor function recovery in nerve repair.

134. 12th – 15th January 2013 American Society for Reconstructive Microsurgery, Naples, Florida
Invited Faculty: Session Chair
Topic: Tips and tricks for Approaching Unusual Replantation.

135. 12th – 15th January 2013 American Society for Reconstructive Microsurgery, Naples, Florida
Invited Faculty: Panel Speaker
Topic: Scalp replantation.

136. 4th – 8th December 2012.South Australian Hand Society, Annual Meeting, Adelaide
Guest Speaker:
Topic: Management of Complex Injuries of the Upper Limb - Ganga Hospital Experience - Part II
 Dr S Raja Sabapathy

137. 4th – 8th December 2012.South Australian Hand Society, Annual Meeting, Adelaide
Guest Speaker:

Topic: Management of Complex Injuries of the Upper Limb – Ganga Hospital Experience - Part I

Dr S Raja Sabapathy

138. 4th – 8th December 2012. Royal Adelaide Hospital, Australia, Department of Plastic Surgery
Grand Rounds Speaker:

Topic: Secondary Reconstruction of Long Segment Loss of Tendons Following Trauma.

Dr S Raja Sabapathy

139. 4th – 8th December 2012. Royal Adelaide Hospital, Australia, Department of Plastic Surgery
Grand Rounds Speaker:

Topic: Extending the frontiers of replantation surgery

Dr S Raja Sabapathy

140. 4th – 8th December 2012. Royal Adelaide Hospital, Australia, Department of Plastic Surgery
Grand Rounds Speaker:

Topic: Challenging Thumb Reconstruction.

Dr S Raja Sabapathy

141. 4th – 8th December 2012. Royal Adelaide Hospital, Australia, Department of Plastic Surgery
Grand Rounds Speaker:

Topic: Aesthetics consideration in choice of flap cover to the hand and upper limb.

Dr S Raja Sabapathy

142. 10th – 13th October 2012. Asia Pacific Federation for Surgery of the Hand, Bali, Indonesia
Morning Master Class – Instructional Course

Topic: Burn Hand Injury – Integrated wound management & surgical treatment.

Dr S Raja Sabapathy

143. 10th – 13th October 2012. Asia Pacific Federation for Surgery of the Hand, Bali, Indonesia
Guest Lecturer:

Topic: Aesthetics in choice of flaps in the hand.

Dr S Raja Sabapathy

144. 8th – 9th October 2012. Asia Pacific Federation for Reconstructive Microsurgery, Singapore
Guest Lecturer:

Topic: Step by Step approach to mutilating hand injuries.

Dr S Raja Sabapathy

145. 6th – 8th September 2012. Annual Meeting of the American Society for Surgery of the Hand, Chicago, IL, USA

Guest Lecturer:

Topic: Immediate and elective pollicisation for traumatic thumb loss.

Dr S Raja Sabapathy

146. 20th – 23rd June 2012. Federation of European Societies for Surgery of Hand, Antwerp, Belgium

Dr S Raja Sabapathy

147. 15th – 17th June 2012. Central Traumatology Institute, Moscow, Russia

Guest Lecturer:

Topic: Management of Complex Upper limb injury – Our Current Practice.

Dr S Raja Sabapathy

148. 15th – 17th June 2012. Annual Congress, Russian Hand society, Tomsk, Siberia
Guest Lecturer:
Topic: Recent Advances in Replantation of Major Crush Avulsion Amputation.
 Dr S Raja Sabapathy

149. 15th – 17th June 2012. Annual Congress of the Hand Surgeons Association, Tomsk, Siberia
Guest Lecturer:
Topic: Thumb Reconstruction following complex Amputations.
 Dr S Raja Sabapathy

150. 15th – 17th June 2012. Annual Congress of the Hand Surgeons Association, Tomsk, Siberia
Guest Lecturer:
Topic: Management of Long Segment Loss of Flexor tendons in Hand and Forearm
 Dr S Raja Sabapathy

151. 31st May – 3rd June 2012. Symposium in Reconstructive Surgery, Mayo Clinic, Rochester, Minnesota, USA
Honorary Faculty:
Topic: Management of complex injuries in upper limb – Our current practice.
 Dr S Raja Sabapathy

152. 31st May – 3rd June 2012. Symposium in Reconstructive Surgery, Mayo Clinic, Rochester, Minnesota, USA
Honorary Faculty:
Topic: Extending the indications in major avulsion amputation and obtaining outcomes.
 Dr S Raja Sabapathy

153. 31st May – 3rd June 2012. Symposium in Reconstructive Surgery, Mayo Clinic, Rochester, Minnesota, USA
Honorary Faculty:
Topic: Management of combined extensive soft tissue and bone defects of the leg.
 Dr S Raja Sabapathy

154. 15th – 18th May 2012. International Symposium “Developments in Hand Surgery – Current State of the Art Work”, Bad Neustadt, Germany
Guest Lecture:
Topic: Management of Mutilating Hand Injuries.
 Dr S Raja Sabapathy

155. 5th – 8th April 2012. European Federation of Societies for Microsurgery, Paris
Invited Faculty: Panel Speaker
Topic: Soft tissue reconstruction after degloving lesion of the upper limb.
 Dr S Raja Sabapathy

156. 5th – 8th April 2012. European Federation of Societies for Microsurgery, Paris
Invited Faculty: Panel Speaker
Topic: Soft Tissue loss in upper limb.
 Dr S Raja Sabapathy

157. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker:
Topic: Getting good outcomes in major lower limb trauma.
 Dr S Raja Sabapathy

158. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker:
Topic: Management of obstetric brachial plexus birth palsy
 Dr S Raja Sabapathy
159. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker:
Topic: Management of common congenital hand
 Dr S Raja Sabapathy
160. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker:
Topic: Reconstruction of burnt hand deformities.
 Dr S Raja Sabapathy
161. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker: Pre-conference Workshop
Topic: Free Tissue Transfer in the management of hand injuries.
 Dr S Raja Sabapathy
162. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker: Pre-conference Workshop
Topic: Revascularization/replantation in hand injuries.
 Dr S Raja Sabapathy
163. 13th – 15th March 2012. Annual Plastic Surgery Congress of Oman, Muscat
Guest Speaker: Pre-conference Workshop
Topic: Basic principles of management of hand injuries.
 Dr S Raja Sabapathy
164. 22nd – 26th February 2012. International Course on Frontiers in Hand and Upper Limb Reconstruction, Santander, Spain
Invited Faculty: Guest Lecture
Topic: Mini replantations, worth the effort?
 Dr S Raja Sabapathy
165. 22nd – 26th February 2012. International Course on Frontiers in Hand and Upper Limb Reconstruction, Santander, Spain
Invited Faculty: Guest Lecture
Topic: Extending the indications for major replantations.
 Dr S Raja Sabapathy
166. 22nd – 26th February 2012. International Course on Frontiers in Hand and Upper Limb Reconstruction, Santander, Spain
Invited Faculty: Guest Lecture
Topic: Getting satisfactory outcomes in massively injured upper extremity
 Dr S Raja Sabapathy
167. 12th – 14th October 2011. Inauguration of the Burns & Plastic Surgery Congress, Colombo, Sri Lanka
Invited Faculty: Guest Lecture
Topic: What does a Hand Surgeon expect from his Therapist?
 Dr S Raja Sabapathy

168. 12th – 14th October 2011. Inauguration of the Burns & Plastic Surgery Congress, Colombo, Sri Lanka
Invited Faculty: Guest Lecture
Topic: Lower Limb Reconstruction
 Dr S Raja Sabapathy
169. 27th June – 2nd July 2011. Annual Meeting of the World Society for Reconstructive Microsurgery(WSRM), Helsinki, Finland
Podium Presentation: Second Toe Transfer for Thumb Reconstruction for amputation around CMC Joint with soft tissue loss requiring prior Groin flap cover.
 Dr S Raja Sabapathy
170. 27th June – 2nd July 2011. Annual Meeting of the World Society for Reconstructive Microsurgery (WSRM), Helsinki, Finland
Invited Faculty: Panel Speaker: Replantation Session
Topic: Experience with replantation and revascularization of 92 avulsion and crush avulsion amputations proximal to the wrist.
 Dr S Raja Sabapathy
171. 22nd – 26th May 2011. International Confederation of Plastic Reconstructive & Aesthetic Surgery(IPRAS), Vancouver, Canada
Podium Presentation: Reconstruction of long segment flexor tendon and nerve loss in the forearm secondary to electrical burns injury.
 Dr S Raja Sabapathy
172. 22nd – 26th May 2011. International Confederation of Plastic Reconstructive & Aesthetic Surgery(IPRAS), Vancouver, Canada
Panel Speaker in the Session: Protecting our specialty in the 21st Century
Topic: Developing a high quality centre
 Dr S Raja Sabapathy
173. 22nd – 26th May 2011. International Confederation of Plastic Reconstructive & Aesthetic Surgery(IPRAS), Vancouver, Canada
Invited Faculty: Master Class
Topic: Management of upper extremity injuries.
 Dr S Raja Sabapathy
174. 22nd – 26th May 2011. International Confederation of Plastic Reconstructive & Aesthetic Surgery(IPRAS), Vancouver, Canada
Invited Faculty: Chairperson: Peripheral Nerve Session
 Dr S Raja Sabapathy
175. 22nd – 26th May 2011. International Confederation of Plastic Reconstructive & Aesthetic Surgery(IPRAS), Vancouver, Canada
Invited Faculty: Panel Speaker: Hand Surgery Session
 Dr S Raja Sabapathy
176. 8th – 12th May 2011, University Sans Malaysia, Kota Bharu, Malaysia
Guest Lecture to University Students
Topic: Management of major injuries of the upper limb.
 Dr S Raja Sabapathy
177. 8th – 12th May 2011, University Sans Malaysia, Kota Bharu, Malaysia
Guest Lecture to University Students
Topic: Lessons learnt in the last 20 years in replantation surgery

178. 8th – 12th May 2011, University Sans Malaysia, Kota Bharu, Malaysia
External Examiner: Exit Exam in Plastic Surgery.
Dr S Raja Sabapathy
179. 1st to 4th November, 2010. 11th Triennial Congress of the International Federation of Societies for Surgery of the Hand, Seoul, South Korea.
Invited Faculty: Panel Speaker: Symposium on Soft tissue cover in Upper Extremity.
Topic: Reconstruction of Upper Extremity using Pedicled Perforator Flaps.
Dr S Raja Sabapathy
180. 1st to 4th November, 2010. 11th Triennial Congress of the International Federation of Societies for Surgery of the Hand, Seoul, South Korea.
Invited Faculty: Panel Speaker: Symposium on Thumb Reconstruction
Topic: Post Traumatic Pollicisation
Dr S Raja Sabapathy
181. 1st to 4th November, 2010. 11th Triennial Congress of the International Federation of Societies for Surgery of the Hand, Seoul, South Korea.
Session Chairperson and Invited Speaker:
Topic: Management of Established Post Burn Hand deformity.
Dr S Raja Sabapathy
182. 1st to 4th November, 2010. 11th Triennial Congress of the International Federation of Societies for Surgery of the Hand, Seoul, South Korea.
Panel on Dorsal Cover to the Hand:
Topic: Dorsal Hand Reconstruction with pedicled SIEA flap and Posterior interosseous flaps.
Dr S Raja Sabapathy
183. 24th – 27th June 2010. 2nd Mayo Clinic – Chang Gung Hospital Symposium on Reconstructive Surgery, Mayo Clinic, Rochester, USA.
Honorary Faculty: Cadaver Dissection workshop
Dr S Raja Sabapathy
184. 24th – 27th June 2010. 2nd Mayo Clinic – Chang Gung Hospital Symposium on Reconstructive Surgery, Mayo Clinic, Rochester, USA.
Honorary Faculty: Pedicled Lower Abdominal Flaps for Upper limb defects
Dr S Raja Sabapathy
185. 24th – 27th June 2010. 2nd Mayo Clinic – Chang Gung Hospital Symposium on Reconstructive Surgery, Mayo Clinic, Rochester, USA.
Honorary Faculty: Management of Large Segment Combined Loss of bone and soft tissue in the leg.
Dr S Raja Sabapathy
186. 24th – 27th June 2010. 2nd Mayo Clinic – Chang Gung Hospital Symposium on Reconstructive Surgery, Mayo Clinic, Rochester, USA.
Honorary Faculty: Reconstruction of weight bearing heel
Dr S Raja Sabapathy
187. 24th – 27th June 2010. 2nd Mayo Clinic – Chang Gung Hospital Symposium on Reconstructive Surgery, Mayo Clinic, Rochester, USA.
Honorary Faculty: Coverage of defects around the knee and elbow

Dr S Raja Sabapathy

- 188.** 22nd – 25th Feb 2010. 22nd Congress of the Asian Association of Paediatric Surgeons, Kuala Lumpur, Malaysia
Invited Faculty: Delivered the State of the Art Lecture: 'Management of Limb Injuries in Children'.
Chairman: Session on 'Paediatric Trauma'
Dr S Raja Sabapathy
- 189.** 24th Feb 2010, Lecture to the Hand Surgeons of Kuala Lumpur.
Topic: Pearls and Pitfalls in Microsurgery
- 190.** 17th to 20th Dec 2009, 4th Turkish Society for Reconstructive Microsurgery, Antalya, Turkey.
Invited Guest Speaker: Major Replants – Optimizing outcomes
Dr S Raja Sabapathy
- 191.** 17th to 20th Dec 2009, 4th Turkish Society for Reconstructive Microsurgery, Antalya, Turkey.
Invited Guest Speaker: Challenging Thumb Reconstructions
Dr S Raja Sabapathy
- 192.** 17th to 20th Dec 2009, 4th Turkish Society for Reconstructive Microsurgery, Antalya, Turkey.
Invited Guest Speaker
Video session: Scalp Replantation
Dr S Raja Sabapathy
- 193.** 6th to 9th May 2009. 78th Annual Scientific Congress of the Royal Australian College of Surgeons, Brisbane, Australia
Distinguished Visiting Lecturer of the College and Guest Professor of the Australian Society for Surgery of the Hand
Master class: Management of Major Limb Injuries – Optimizing the outcomes
Dr S Raja Sabapathy
- 194.** 6th to 9th May 2009. 78th Annual Scientific Congress of the Royal Australian College of Surgeons, Brisbane, Australia
Keynote address: Organizing a Trauma, Hand and Microsurgical centre in a Non Metropolitan area
Dr S Raja Sabapathy
- 195.** 6th to 9th May 2009. 78th Annual Scientific Congress of the Royal Australian College of Surgeons, - Trauma section, Brisbane, Australia
Invited Lecture: Maximum outcome with Minimal Resources in the Management of Mangled Limb Injuries.
Dr S Raja Sabapathy
- 196.** 6th to 9th May 2009. 78th Annual Scientific Congress of the Royal Australian College of Surgeons, Brisbane, Australia
Invited Lecture: Minor Replants – Tips for success
Dr S Raja Sabapathy
- 197.** 6th to 9th May 2009. 78th Annual Scientific Congress of the Royal Australian College of Surgeons, Combined Plastic Surgery and Hand Section Brisbane, Australia
Invited Lecture: Major Replants – Lessons learnt
Dr S Raja Sabapathy

198. 12th May 2009 Meeting of the Victorian Hand Society, St Vincent's Hospital, Melbourne
Invited Guest Speaker: Challenging Thumb Reconstructions
Dr S Raja Sabapathy
199. 24th to 27th June 2009, 5th Congress of World Society for Reconstructive Microsurgery, Okinawa, Japan.
200. **Panel Speaker:** Lower Extremity Reconstruction. – Reconstruction of Complex injuries around foot and ankle and outcome determinants
Dr S Raja Sabapathy
201. 24th to 27th June 2009, 5th Congress of World Society for Reconstructive Microsurgery, Okinawa, Japan.
Moderator: Symposium on Upper Extremity Reconstruction.
Dr S Raja Sabapathy
202. 24th to 27th June 2009, 5th Congress of World Society for Reconstructive Microsurgery, Okinawa, Japan.
Chairperson: Free paper session on Perforator Flaps
Dr S Raja Sabapathy
203. 2nd to 5th Sept 2009, Combined Annual Meeting of the American Society for Surgery of the Hand and American Society of Hand Therapists, San Francisco
Invited Faculty: Pre course: Mutilated Hand – from the Emergency room to Return to Work. 'Secondary Flexor and Extensor Reconstruction'
Dr S Raja Sabapathy
204. 15th to 17th Feb 2008. 7th Congress of the Asian Pacific Federation of Societies for Surgery of the Hand, Hong Kong
Invited talk: Principles in the selection of Soft tissue cover in the management of major hand injuries.
Dr S Raja Sabapathy
205. 15th to 17th Feb 2008. 7th Congress of the Asian Pacific Federation of Societies for Surgery of the Hand, Hong Kong
Podium Presentation: Reconstruction of long segment loss of tendons and nerves in electrical burns of the wrist
Dr S Raja Sabapathy
206. 15th to 17th Feb 2008. 7th Congress of the Asian Pacific Federation of Societies for Surgery of the Hand, Hong Kong
Podium Presentation: Functional outcome of one bone forearm in salvage situations.
Dr S Raja Sabapathy
207. 15th to 17th Feb 2008. 7th Congress of the Asian Pacific Federation of Societies for Surgery of the Hand, Hong Kong
Poster Presentation: On arrival block in the management of mutilating upper limb injuries.
Dr S Raja Sabapathy
208. 15th to 17th Feb 2008. 7th Congress of the Asian Pacific Federation of Societies for Surgery of the Hand, Hong Kong

Poster Presentation: Primary bone grafting with pedicle flap as cover in the management of dorsal combined injuries of the digits

Dr S Raja Sabapathy

209. 19th to 21st June, 2008. XIII Congress of the Federation of European Societies for Surgery of the Hand. IX Congress of the European Federation of Societies for Hand Therapist, Lausanne, Switzerland

Represented India in the council meeting of the IFSSH

Free Paper: Technical Considerations and Functional Outcome of Complex Elbow Injuries.

Dr S Raja Sabapathy

Efforts to Promote Hand and Reconstructive Microsurgery

Setting up of the State of the Art “Ganga Microsurgery Training Institute” for advanced training in Micro Surgery at Ganga Hospital

Lack of laboratory training in reconstructive microsurgery was a big handicap for the growth of the speciality in India. This was made good with the setting up of a lab with standards as good as abroad. This has emerged as a popular training lab in the world. **1379 Surgeons from 70 countries and 136 cities in India have been trained in the lab.** Many trainees have gone back to their respective places and did the first Microsurgical Flaps and Replantations in their units.

Comment of Dr Robert D Acland, Louisville, USA, the pioneer in Microsurgery on his visit to the Microsurgery Lab at Ganga Hospital, February 2006.

“I am so happy to be here in your new United Nations of Microsurgical progress and education. This feels the same, in terms of energy and excitement as Louisville in the 70’s, or Ljubjena in the 80’s. My best wishes for your long continued success.”

In the 1st September 2007 issue of the **British Medical Journal**, Careers, Dr Philip Yong, one of the trainees from London, wrote an article about the high standards of training offered in the Microsurgery Lab of Ganga Hospital. This article created tremendous enthusiasm among the trainees around the world to visit the centre.

but noticeable improvement over the course. Starting with little knowledge in this field, I finished confident in various microsurgical principles and practices, having acquired useful skills which I could use at home.

Flights and food

I booked flights after emailing the hospital to confirm an available week. Arriving in Coimbatore by plane on a Sunday evening, I was taken to my hotel by a driver from the hospital. The Sri Lakshmi Hotel was inexpensive (£10 a night) and a 10 minute walk from Ganga Hospital. The room was comfortable, with noisy air conditioning and reliable hot water. I had cable television with CNN, BBC World, and live Premiership football as well as local broadcasting. Food was not provided in the hotel, but an adjacent restaurant served excellent south Indian food, with a two course meal for £1.50. Otherwise I ate in the clean and cheap hospital canteen. At a medical bookshop close by, books were considerably cheaper than in the UK – the *Oxford Handbook of Clinical Medicine* cost £2.50.

Why India?

Studying in India has several advantages. The course fees were £300. Even taking into account the price of a return flight to Bangalore (£400), connecting flights to Coimbatore (£20), and cost of food and lodging, I still saved money compared with a course in the UK. Each week long course has only two trainees, so supervision is close and thorough. I organised my trip around annual leave as the course dates are flexible. Furthermore, when time allows, you can go to theatre and watch real life microsurgery to consolidate the principles learnt on the course. Coimbatore is hot and local food may not be to everyone's taste. Western food was not available in the hospital canteen, but there were no other downsides.

I also had a chance to meet local surgical trainees. I was amazed to learn that they worked seven days a week from 7 am to 10 pm, with two days off a month. This certainly put the working time directive into perspective. Philip Yong, SHO in plastic surgery, Queen Victoria Hospital, East Grinstead blintang@doctors.org.uk

Microsurgery in India

Philip Yong travelled to India to learn microsurgery

Coimbatore is the second largest city in the state of Tamil Nadu, with a population of two million. It is not a major tourist destination. Ganga Hospital, Coimbatore, is a specialist trauma, orthopaedics, and plastic surgery centre in south India with 400 beds. A five day course in microsurgery is offered by the plastic surgery department.

Life's a beach

Attending a microsurgery course is a requirement for plastic surgery trainees. However, the skills and techniques, especially knot tying and tissue handling, are useful in all surgical specialties. No previous experience is required, and the course is recognised in the United Kingdom. It could be combined with a holiday on the beaches of Kerala in the south west (120 miles) or in the nearby hill station of Oshamund (50 miles).

I spent five days in an air conditioned microsurgical training institute. Each day comprised eight hours of teaching. The course is a clone of Robert Acland's course taught at the Kleinert Institute in Louisville, with only two students at any time. His microsurgery training manual was available for £3.50, complementing the week's activities. We were supervised by an experienced nurse specialist, who helped as and when needed, and we had regular

input from consultants. Zeiss floor mounted microscopes were used, as in theatre, adding a touch of realism.

Rats, veins, and videotape

The complexity of the course increased gradually, with regular breaks every few hours. Each day started with a video of Acland talking and demonstrating, followed by practice on anaesthetised laboratory rats. On the first day, we watched an introductory video about microscope use and basic operative technique, we then practised by suturing a rubber glove with 10-0 nylon and attempted to anastomose a chicken leg artery. In the next few days, we tried to clamp, sever, and anastomose numerous rat

Starting with little knowledge in this field, I finished confident in various microsurgical principles and practices, having acquired useful skills which I could use at home

femoral arteries and veins. It was satisfying to release the clamps and have a flowing vessel. On the last day, vein grafts and end to side anastomoses were attempted. The rat vessels used are around 1 mm in diameter, smaller than most vessels likely to be encountered clinically. I practised on seven live arteries and three veins in total, with mixed results

Creation of Paid Fellowships for training in Hand and Reconstructive Micro Surgery

Dr S Raja Sabapathy took efforts to institute Fellowships for training younger surgeons in the field of Hand and Microsurgery. This was in collaboration with industry leaders in the field. These paid Fellowships attract quality surgeons towards the field and has greatly changed the scenario of Hand and Microsurgery training in the country. These fellowships are the first of their kind and are most sought after by candidates completing M Ch training in Plastic Surgery.

This Fellowship enables middle level senior people in public hospitals and teaching institutions to spend 8 weeks at Ganga Hospital learning the protocols of management of different problems. In turn it is hoped that the trainees will impart the knowledge gained to their students. The first of this is

Ganga Hospital – Johnson & Johnson Fellowship in Hand and Reconstructive Microsurgery

Mr. William Dearstyne, Company Group Chairman, Johnson & Johnson visited the Hospital on 5th March 2002. During the presentation of the work of the departments of the Hospital it was suggested that paid fellowships as available abroad will encourage the faster spread of Reconstructive Microsurgery. The advantage of its application in Hand Surgery and Trauma reconstruction and its need in India was stressed. Mr. Dearstyne was impressed of the potential of Ganga Hospital for such collaborative effort. As a follow-up of the visit, two Fellowships were set up. Each Fellowship is of the value of Rs 25,000. Now it has been upgraded to Rs 37,500. Johnson & Johnson provide the funding and the Ganga Hospital provides the training. The selected candidates spend 6 to 8 weeks at Ganga Hospital and they take part in all clinical and academic activities of the unit. They also undertake the weeklong Microsurgery laboratory course at the Ganga Microsurgery Training Institute. We had an overwhelming response when the applications were called for vindicating the concept with which we set the fellowship.

Ganga Hospital – Carl Zeiss Fellowship in Hand and Reconstructive Microsurgery

Carl Zeiss, the pioneers in the manufacture of Operating Microscopes collaborates with thought leaders around the world in setting up training centres. The visit of Mr. Ven Raman, Director, Carl Zeiss in 2000 paved the way for the setting up of the Ganga Microsurgery Training Institute. Stimulated by the success, Carl Zeiss came forward to sponsor two fellowships every year. The selected candidates will spend 8 weeks in the Department taking part in all clinical and academic activities of the unit. Each Fellowship is worth Rs 50,000, making it the most valued Fellowship in the field in the country. It is my sincere hope that these educational initiatives would nurture talent and help produce leaders in the field.

Making India, the Destination for Advanced Training.

Institution of Bruce Bailey Traveling Fellowship (for British Trainees)

Mr. Bruce Bailey, Retired Senior Consultant Plastic Surgeon at Stoke Mandeville Hospital, United Kingdom passed away in April 2001. He was responsible for training many Plastic Surgeons from India including Dr S Raja Sabapathy. He opened the windows of opportunities for many young surgeons from our country. In the memory of this great man **“Bruce Bailey Traveling Fellowship”** was set up by Dr S Raja Sabapathy. Bruce visited India many times and loved it. It is felt that setting up a Fellowship to enable a British Trainee visit our unit for a period of 6 to 8 weeks is a good way to keep the memory of the great man alive. It surely will build bridges between the two countries to mutual advantage. The Fellowship is recognized and announced in the newsletters of the British Association of Plastic Surgeons and the British Society for Surgery of the Hand for the information of the interested candidates.

It is worthy to add the impressions of the Bruce Bailey Fellow about the scheme.

“I am a Specialist Registrar in Plastic Surgery at Canniesburn Hospital in Glasgow in the UK, in my final year of training. I have been very lucky to be selected as the very first Bruce Bailey Fellow, and I have been at Ganga Hospital for the last 2 months. During this time, I have been involved in the management of more major upper and lower limb injuries **than I would normally see at home in several years. The opportunity to be a part of the team at Ganga, working in a different country with a completely different culture, whilst maintaining the highest clinical standards, as good as the best units in the UK, has been a fascinating experience.** There are many differences, but also many similarities between the two systems! The Bruce Bailey Fellowship has been a great learning experience for me....”

- Mr Rodrick Dunn – 2002

Mr Dunn won the **Lester Surgical and Heinz Waldrich Prize** worth £ 1500 for the best Micro surgically oriented paper presented during the BAPS meeting held at London, Dec 2003 for the paper, ***‘Passage to India – Bruce Bailey Fellowship in Hand and Microsurgery’***. The paper was about the experience and the work done during his fellowship at Ganga Hospital, Coimbatore. Rod presented the prize of £ 1500 worth of Micro instruments to the department.

Chosen destination for Visit and Training of Major International Hand Surgery Fellowship Awardees

Sterling Bunnell Fellow of the American Society of Surgery

Sterling Bunnell Fellowship is one of the highest honours bestowed by the American Society for Surgery of the Hand on any of its members to travel to three or four outstanding Centres in the world.

Dr Martin M Boyer, Associate Professor, Department of Orthopaedic Surgery, Chief, Orthopaedic Hand Surgery Service, Washington University, St. Louis, the **Sterling Bunnell Fellow of 2006** visited the Unit and Ganga Hospital in April 2006 and he had this to say

“..Thank you for a stimulating, educational, enjoyable and invigorating week at the Ganga Hospital. I appreciate your friendship, value you as a colleague and admire what you have already done, what you are currently doing and what you hope to accomplish in your new facility in the future...”

As the follow up of the visit he was instrumental in signing up of an MOU between the University of Washington, St Louis and the Department of Plastic, Hand and Microsurgery, Ganga Hospital for training their residents in Microsurgery. 5 residents from the University of Washington have already come for Training to Coimbatore..

First Senior Traveling Fellow of the Federation of European Societies of Surgery of the Hand

Dr Torbjorn Vedung, Department of Hand Surgery, Sodertjukhuset Stockholm, Sweden, visited the Unit in Dec 2006 as the **FESSH Fellow**. He chose to spend 3 weeks at the Mayo clinic, USA, 3 weeks at Ganga Hospital and 4 weeks in 4 centres in Japan. He considered the visit to Ganga Hospital as one of the highlights of his fellowship and he had this to say

“..I truly have enjoyed the experience. I have also picked up many pearls and tricks not only regarding microsurgery but also life itself. I am impressed with the effort and dedication you all put in to your work. If anyone is interested to learn about trauma care this is the place in the world....”

Pulvertaft Fellow of the British Society of Surgery of the Hand.

Dr David Bell, Plastic Surgery SPR, Manchester, UK, spent 6 months (July to December 2007) in the Unit as **Pulvertaft Fellow** of the British Society for Surgery of the Hand. He had this to say

“..I have had a remarkable time in India. I have just about got to grips of Ganga Philosophy of Trauma Management and learnt a few valuable maxims. I have seen more here in 6 months than in the several years back home. Such is the intensity of your work.... ”

Creation of Ganga Hospital – Johnson & Johnson Visiting Professorship in Hand and Microsurgery

A new chapter in our continuing efforts for the promotion of Hand and Microsurgery was made in the year 2005 by the starting of the Visiting Professorship programme. It is a joint effort of the Dept of Plastic, Hand and Reconstructive Microsurgery and the Ethicon division of Johnson & Johnson. A hand surgeon of international repute is invited to spend a week in the department. The visiting professor lectures and takes part in all the academic and clinical activities of the department. This interaction results in cross fertilization of ideas for the benefit of patients and builds bridges between departments, hand surgery communities and nations.

Visiting Professor – 2005

Prof Lam Chuan Teoh

Ganga Hospital Fellowship for Bangladesh Hand Surgeons

A one year fellowship is sponsored by the Department of Plastic Hand and Microsurgery of Ganga Hospital to enable young surgeons from Bangladesh to train in Trauma Reconstructive Surgery. Started in the year 2006, the fellow is selected by a team comprising of Prof. Kairy and Prof. Kalam to undertake training with the sanction of the Government of Bangladesh. The candidates on their return have done good service in their areas.

Ganga Hospital Fellowship for Kenyan Surgeons

A Memorandum of Understanding was entered into by the Plastic Hand and Microsurgery Department of Ganga Hospital and the Vice-Chancellor of the University of Nairobi, Kenya on 30th Jan 2009 to co-operate and conduct joint teaching programmes for post graduates and facilitate students and faculty exchange.

Medecins Sans Frontieres (Doctors without Borders)

Medicines Sans Frontieres is an organization which renders medical care in regions conflict and its service was recognized for the Nobel Peace Prize in the year 1999. At the recommendation of Plastic Surgeon, Dr. Chanjiv Singh, Ms. Farhat Mantoo, Human Resources Officer of MSF – India, New Delhi visited our centre on 1st August 2008. She penned the following words in our visitor's book.

“I thank you for the hospitality. I have seen the Hospital and I am really impressed. I found the people welcoming and the best was seeing the Iraqi patient and your nonverbal communication. You can really bridge barriers. Dr. Sabapathy, I appreciate your support and willingness to extend your expertise to all”.

- Ms. Farhar Mantoo

She found that the type of work done and the learning opportunities available in the department would be very useful to surgeons in regions where reconstructive surgery is much needed. As a pilot project 2 surgeons from Iraq, from the region of Sulaimaniya came for a few weeks and also took the microsurgery lab course. They found it useful and visit to Ganga Hospital has become a routine to surgeons with responsibility in reconstructive surgery and maxillo facial surgery in the region. So far 14 surgeons from Sulaimaniya, Iraq have come for training and we are happy that indirectly we are able to make a difference in the lives of people far away.

Making the Advances in the Speciality available and affordable to the masses.

Save the Working Hand – Phase I - Poster project - 1995

A poster campaign with the Rotary Club of Coimbatore Metropolis was started under the banner, ‘**Save the Working Hand**’, emphasizing the need for safety in the workplace. Dr S Raja Sabapathy was the Project leader. **5000 posters** in different colours with good messages were printed (2 on the need for safety in the workplace and the third about the first aid measures to be taken in the event of injury) and distributed to all industries. Campaign talks were also given in the industries. It **had a very good effect and all industries recorded a decrease in the number of accidents.**

Save the Working Hand – Phase II – Surgery for Poor Workers – 1998

We reduced the number of injuries, but we had higher goals. In the unfortunate event of an accident we wanted every injured patient to get the best possible treatment. A Rotary matching grant project was done which facilitated reconstructive surgery for poor patients who needed specialized treatment including major microsurgery. 100 patients were treated. **The funds from the grant were utilized for the consumables with Dr Raja Sabapathy and team waiving their fees. Rs 391,000 was the grant amount, but the total project value was Rs 1,095,000. So every ‘rupee of the grant went a long mile’.**

'Save the working hand' project launched

By Our Staff Reporter

COIMBATORE, Dec. 21.

The community service project called "Save the working hand" jointly sponsored by the Rotary Club of Coimbatore Metropolis and Ganga Hospital, was launched here on Monday by Mr. S. P. Ilangovan, Secretary to the Government of Tamil Nadu, Department of Labour and Employment.

Speaking on the occasion, Mr. Ilangovan emphasised the importance of hand or fingers without which even pushing a pen would be a difficult proposition. Gestures were of vital importance to dancers, speakers and academicians. Hands were also used to show love and affection as the first thing that one tends to do on meeting the near and dear ones was to hug or embrace them.

Mr. Ilangovan appreciated the Rotary Club and Ganga Hospital for having taken up such a unique project for the welfare of society, especially for the workforce. Explaining the project Dr. S. Raja Sabapathy, Chairman, project committee and the Ganga Hospital, said, unlike in the case of other severed or dismembered limbs, no

"prosthetic hands" did not exist. Hand injury was not a medical problem.

Dr. Raja Sabapathy said a developing economy like ours could ill afford the disability to the worker, loss of productivity, and employment. He said that most of the injuries could be prevented if safety rules were strictly adhered to.

He further stated that 40 per cent of all industrial accidents were hand injuries and most of them were preventable. A study of the pattern of injuries revealed that these happened to young people or to the seasoned workers who did not take precautions.

Referring to the precautionary measures, Dr. Raja Sabapathy, said in the case of severed fingers, the first thing one ought to do was to put the dismembered part in a polythene bag and tie it tightly. This bag must be placed in an ice-filled vessel or a container, the amputated finger or hand must not be directly put in ice or any solution.

He said it was now possible to reattach even totally amputated hands through microsurgery, and to educate the people on these aspects, the

Rotary Club of Coimbatore Metropolis had designed posters which were exhibited at the work places emphasising the need for safety consciousness to prevent hand injuries.

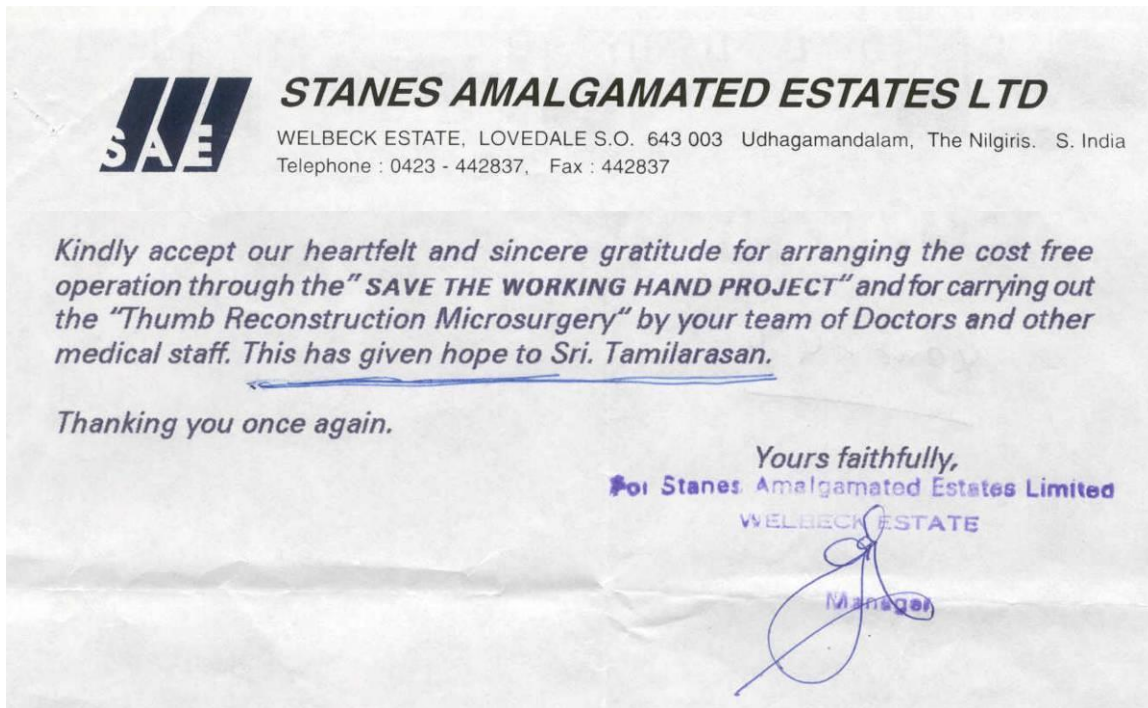

Many industries reported lesser incidence of accidents after the posters were exhibited at the work places. Others who spoke on the occasion included Mr. V. K. Lakshmanan, deputy leader of the Opposition in the State Assembly, Mr. A. Natarajan, M.L.A., Mr. V. S. Srinivasan, president and Mr. S. Satish, secretary of the club.

Tamilarasan, had lost his thumb and half of hand in an accident and by microsurgery a new thumb was created from his great toe. He went back to his job again. A disastrous situation was turned into useful recovery and he was confident to face the world again. 100 such patients were treated, by making complex microsurgery available to the masses.

The Hopes of more than 100 families were kept alive because of this Rotary project.

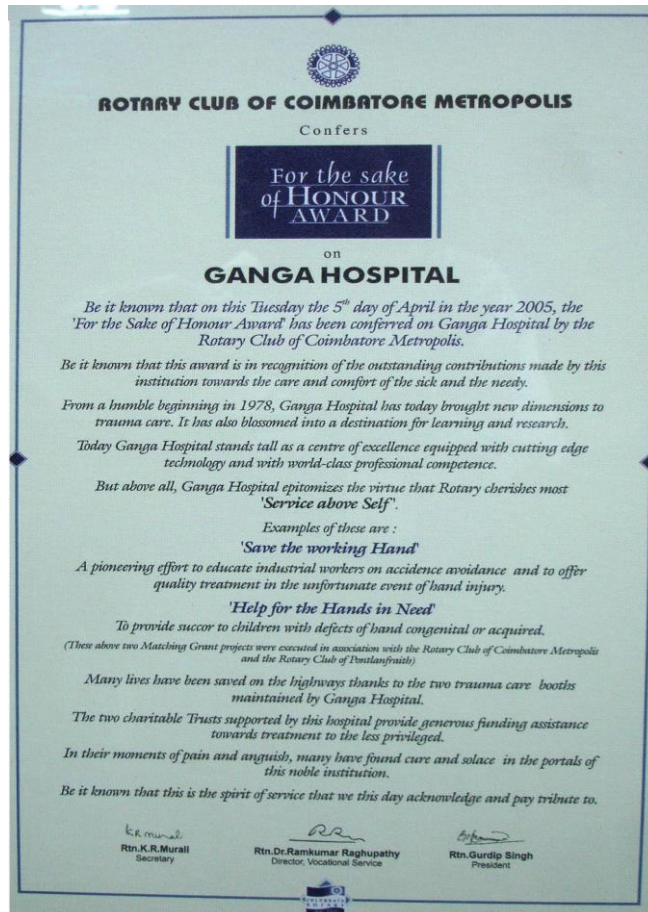

The first beneficiary of the project Dec 1998 Mr. Packiaraj, 18 year old worker in a packaging company who had thumb amputation. He is back in the same job. Here he is seen greeting Assistant Governor Rtn. Ramesh on the occasion of the inauguration of the next project

The project was a great success and it was decided to do it on a bigger scale. It was renamed as **'Help for the Hands in Need'** to enable us to serve not only injured workers but also children with spastic hands and with birth defects. Swamini Pramananda inaugurated this scheme and it was a matching grant scheme again with the Rotary Club with the grant being doubled to US \$ 12000. **Due to the free service of the medical team, the total project value was US \$ 30000. This time in addition to accidents, children with birth defects and spastic hands were also treated.**

Creation of Ganga Hand Injury Support Group

This group was inaugurated by Hon Justice Shivaraj V. Patil on 20th December 2007 in the presence of Dr B A Anantharaman, President, Indian Society for Surgery of the Hand. It is dedicated to better the lives of people who suffer serious injury to their hands and upper extremity. The group will comprise of patients who have suffered such injuries, surgeons involved in the care of patients, therapists, social workers, industrialists and any one who is willing to give a helping hand.

Good recovery after hand reconstruction often takes time, and it requires perseverance on the part of the patient. No one is able to provide this support better than a person who has been in similar circumstances and is presently doing well. Mr. Srinivasan and Mr. Biju who had sustained very serious hand injuries gave inspirational speeches on the occasion. Former patients in this group will give valuable support to the patients and their families. It will provide the network and the needed information.

Present day society does offer help to differently able persons. But many are not aware of the opportunities available. The group will serve as a resource base to help people know the possibilities.

Ganga Hand Injury Support Group will

Help people live with change

Face the world with confidence

Open up windows of opportunities

Project ‘Swasam’

An ambitious project to provide free surgery for deformity correction in poor children was inaugurated by our beloved past President Dr APJ Abdul Kalam on. This allows us to reach out to the needy. A separate ward has been created wherein totally free surgery is done to all needy children.
